MonsoonSIM**

“ what is monsoonsim?”

Monsoon Simulation (MonsoonSIM) is the first cloud-based online business experiential learning platform for business studies that cover business processes including sales, marketing, finance and service, procurement, accounting, manufacturing human resources, e-commerce, supply chain etc., as well as hundreds of other business concepts ready to be discovered by learners via immersive and competitive games.

Emulate realistic business environment

Students in teams of five will be required to run virtual companies to compete with one another to achieve the highest business KPI targets set. Through applying corresponding ERP concepts onto the simulated environment, they will get a raw taste of what it would be like to engage in business decision making and come up with various strategies

Digital transformation

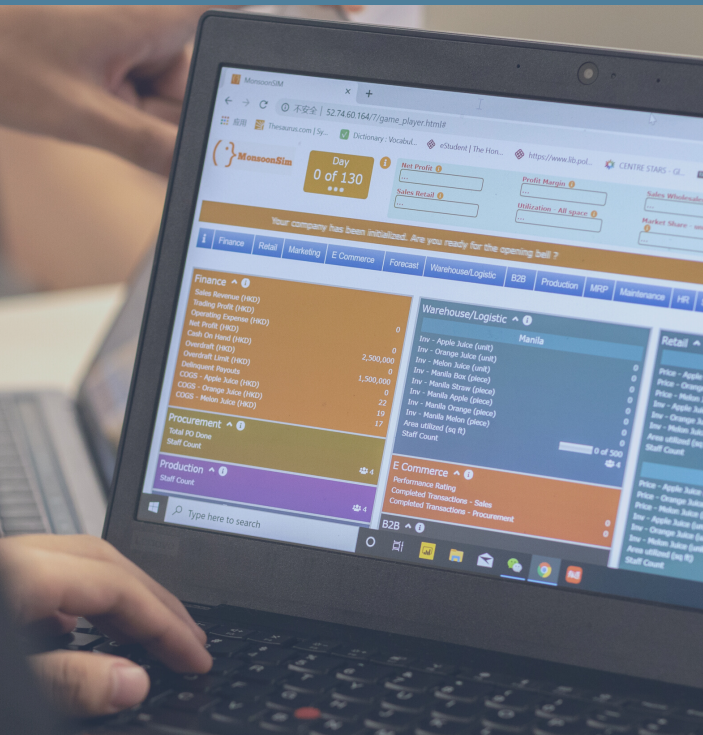

MonsoonSIM allows education institutions to transform from 'teaching by theory' to 'teaching by experience', and from 'learning by remembering' to 'learning by experiencing'

What you will learn...

- Get acquainted with different principles of business operation management, accounting, ERP, supply chain and logistics, etc.
- Develop critical thinking skills through solving challenges that arose in the management process
- Brush up communication skills
- Apply knowledge learnt in lectures and textbooks to make the best decision collaboratively with other teammates

Concepts covered

- Business and economics fundamentals
- Business operational management
- Enterprise Resource Planning (ERP)
- Logistics and Supply Chain Management (SCM)

“ monsoonsim enterprise resource management competition

The MonsoonSIM Enterprise Resource Management Competition (MERC) is an annual competition hosted by MonsoonSIM and its partners. Winning teams of MERC HK will represent Hong Kong to participate in the International MERC Grand Final to compete with teams from other countries, including but not limited to Singapore, Malaysia, Indonesia, Thailand, Taiwan, the Philippines, the United States of America, Australia, Macau and the Mainland China.
