The Hong Kong University Student Innovation and Entrepreneurship Competition, which originated in 2015, is currently the largest and most representative competition for university students in Hong Kong. The competition encompasses both "innovation" and "entrepreneurship" and serves as a link to two of the most authoritative and renowned national competitions, the "Challenge Cup" and "China International College Students' Innovation Competition". Award-winning projects have the opportunity to be selected as part of the "HKSAR representative team" to participate in three international competitions and invention exhibitions, including: WorldInvent™ Singapore (WoSG), Indonesia Inventors Day (IID) & Seoul International Invention Fair (SIIF) and gain access to resource connections, public exhibitions, media coverage and other development opportunities.
