COURSE DESCRIPTION
The course aims to introduce the investment consulting industry and provides students with practical understanding of the industry in its relevance to the asset management and private wealth industry, particular in relation to institutional investors and family office. Students would be able to articulate and assess the process and methodology employed by the investment consultants in developing investment objectives, investment procedures and risk management of institutional clients, and able to compare and contrast the difference between sovereign funds, public funds, endowment funds, pension/retirement funds, corporate funds and family office managed fund. Students would also be able to identify the growing importance and dynamics of family office (single family office and multi family office) in managing family funds, wealth planning and succession planning for ultra-high network individuals/families.

COURSE OBJECTIVES
The course provides a conceptual and practical approach to the understanding of the investment consulting industry – which has a long history with a niche focus – and how investment consultants help the institutional investors in developing investment objective/policy/guideline and in selecting asset managers and evaluation of managers’ performance.

The course also provides a conceptual and practical approach to understanding the dynamics of a family office, how the family office helps the client in meeting their investment objectives as well as planning for wealth succession and wealth transfer.

The course will provide an opportunity for students to apply the basic investments and portfolio analysis knowledge they acquired in the pre-requisite case into solving the issues/problems faced by the investment consultants. Students will be able to assess the development of the asset and wealth management industry and prepare students to pursue a career in institutional business, family office business and the finance industry in general.

### COURSE POLICY

(e.g. plagiarism, academic honesty, attendance, etc.)

Academic Honesty
Plagiarism (http://aao.hku.hk/sy3/plan-of-study/exa-and-ass/plagiarism/)

“Plagiarism is defined as the unacknowledged use, as one’s own, of work of another person, whether or not such work has been published. It is a very serious academic offence and the University does not allow or tolerate plagiarism. Any student who commits plagiarism is liable to disciplinary action which can result in serious consequences – including expulsion from the University.

You are strongly advised to read the booklets “What is Plagiarism” and “Plagiarism and How to Avoid It” and to consult your teachers if you have any questions about how to avoid plagiarism.”

Cheating

Cheating is another very serious academic offence. Any student who commits cheating on homework assignments or midterm or final examination will receive a grade “F” for the whole course. In addition, the case will be reported to the relevant Board of Examiners and/or the Senate of the University for further actions.

Class Attendance and Work Load

To maximize learning experience, students are strongly recommended to attend all the lectures, submit the homework assignments and cases on time and participate actively in class and in the preparation of the term project. The work load of this course is quite heavy and students are expected to spend at least 134 contact/study hours as described above.

Class Conduct

The guiding principle governing class conduct is mutual respect. All mobile phones must be switched off or on silent mode. No eating or drinking is allowed. Students should not disturb others in class.
