Course Logistics:

Please note that all lectures are face-to-face. No live broadcasting will be provided.

Class Schedule: Saturday mornings. Normal lectures are about two hours. Some other class activities are scheduled on different days after the normal lecture as follows:

11 Feb Introduction to assessment
25 Feb Proposal consultation
25 Mar Term paper consultation
29 Apr Term paper consultation

Classroom: KB 223 (Knowles Building)

We use a course management system MOODLE. Please login to your HKU Portal account to access MOODLE. You are urged to ask questions about the course via the MOODLE platform.

Professor Y C R Wong’s video lectures and PowerPoint slides will be available online as the class progresses. Students are expected to watch the video lectures before coming to the weekly scheduled class period. Class time will be devoted to discussing key issues to deepen and broaden our understanding of the material. The first class-period will also be used to explain how Moodle works.
Description:

The course provides a theoretical and empirical understanding of the political economy of law and public policy making, examines how law and regulation affects with policy outcomes, and familiarizes students with economic concepts and tools useful for analyzing policy issues. Topic covered include, public goods, externalities, monopolies, regulation, rent seeking, law and economics, law enforcement, legal systems and public bureaucracy.

Aims:

1. To provide a theoretical and empirical understanding of the political economy of law and public policy;
2. To study in depth the concepts of public goods, externalities, monopolies, regulation, rent seeking, law enforcement, law and economics, public bureaucracy, and political business cycles to gain a good understanding political economic analysis;
3. To familiarize students with the applications of political economic analysis to analyze important policy issues.

Prerequisite:

Students should have studied introductory microeconomics (i.e. ECON1210 Introductory Microeconomics). Students who want to waive the prerequisite may contact Dr. Vera Yuen to discuss.

Course Intended Learning Outcomes (CILOs)

Upon completing this course, students should be able to:

| CILO1 | Enhance theoretical and empirical understanding of the application of political economic analysis to public policy issues. |
| CILO2 | Learn to apply economic concepts to the study of politics as a form of non-market behavior; |
| CILO3 | Develop the critical ability to analyze the differences between the political economic approach to public policy with a purely economic approach; |
| CILO4 | Develop analytical thinking through analyzing the intended and unintended effects of public policy choices on policy outcomes using rigorous analytical tools. |

**Course Assessment:**

There are two assessment requirements for this course: (1) a written final exam (50%) covering topics taught in the course conducted at times indicated above on page 1, and (2) a written paper of 1500 words as coursework (50%). The course grade 100% is determined as the sum of two assessment requirements.

**Written Paper**

The written paper should examine in depth a specific topic studied in the course. It should be a thoughtful examination of a topic discussed in this course based on the materials assigned in the reading list. There is NO need to consult additional reading materials. Students should NOT submit a piece of work that is also being submitted to another course. Here are some good approaches:

1. Write a review of one of the topics learned in this course.
2. Compare and contrast the analysis between two topics on a related subject.
3. Write on a topic that is discussed in several assigned books or papers.
A policy paper studying a specific policy in a jurisdiction.

Consult with Dr. Vera Yuen for advice in deciding on a topic.

The final written paper is due on 14 May 2023. Late submissions will NOT be accepted. A precise word count must be given at the end of the paper. Footnotes and references should be placed at the end of the paper so that they can be excluded from the word count. Appendices are not necessary and not appropriate for papers of such a short length and should not be submitted. It is advisable to seek English language assistance if needed to ensure that your paper is clear.

Nine weeks before the deadline for the final paper, students must submit a half-page proposal of the paper they intend to write. The deadline for submitting the proposal is 5 March 2023. Late submissions will not be allowed. Students should include in the proposal the title of the project and a short summary of the subject they will investigate.

Students are also encouraged to submit optionally a first draft of the final paper for the instructor to provide feedback, but this is optional, not mandatory. If students choose to submit a first draft, they must do so on 9 April 2023. Your grade on the paper will depend only on your final paper, and not your draft.

If you submit a written paper, but DID NOT submit a proposal or the proposal was NOT APPROVED, then you will FAIL this part of the assessment.

Therefore, deadlines to be observed:

- Proposal (mandatory) submission — 5 March 2023
- First draft (optional) submission — 9 April 2023
- Final paper submission — 14 May 2023

The proposal and paper(s) must be submitted electronically via MOODLE.

**Academic Conduct**

1. The University Regulations on academic dishonesty will be strictly enforced! Please check the University Statement on plagiarism on the web: [http://www.hku.hk/plagiarism/](http://www.hku.hk/plagiarism/)
2. Academic dishonesty is behavior in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following type of case:
   a. Plagiarism - The representation of someone else’s ideas as if they are one’s own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else's ideas is still using someone else’s ideas, and must be acknowledged.
   b. Unauthorized Collaboration on Out-of-Class Projects - The representation of work as solely one’s own when in fact it is the result of a joint effort. Where a candidate for a degree or other award uses the work of another person or persons without due acknowledgement:
      - The relevant Board of Examiners may impose a penalty in relation to the seriousness of the offence;
      - The relevant Board of Examiners may report the candidate to the Senate, where there is *prima facie* evidence of an intention to deceive and where sanctions beyond those in (1) might be invoked.
