Dr. Vera Yuen
yuenvera@hku.hk
K.K. Leung 820, 3917-1287
Office hours: Wednesday: 14:30 – 16:30

Tutor: Mr. Colin Xiaokang Sheng
csxk@hku.hk
K.K. Leung 1026, 2857-8308
Office hours: Tuesday 16:30 – 18:30

COURSE LOGISTICS:

Class Schedule: Wednesday, 12:30 – 14:20 pm

Lecture Room: KB223

Dr. Vera Yuen will conduct the term paper class on how to prepare the proposal and fulfil the requirements of the term paper on 15 Feb 2023. Attendance is expected.

Mr. Sheng will conduct interactive small-class tutorials to begin in the third week. Schedules to be arranged after semester starts. Attendance is required.

We use a course management system named MOODLE. Please login to your HKU Portal account to access MOODLE. For further details, please refer to the “MOODLE Instruction Guide” that is posted on our MOODLE website.

COURSE DESCRIPTION:

This course studies how poor nations have alleviated poverty through economic growth and why poverty and inequality continues to persist in rich nations. We examine the changing human economic condition throughout history, from historic times to the modern world.
Simple economic concepts on growth, technology, trade and investments are learned and used to explain why the spread of markets and globalization have fostered growth and reduced poverty in many poor nations. It has reduced global inequality, but raised inequality within and among nations.

We examine why some poor nations have failed to grow and remain mired in poverty and why poverty has not been eliminated in rich nations. We explore the role of foreign aid, legal and political institutions, poverty traps, and immigration is facilitating and preventing growth.

We examine the consequence of new technology on industrialization and globalization over the past two centuries. And how globalization itself is changing and what this means for society, politics and people.

**AIMS:**

The course helps students to:

1. Gain an understanding of why some nations succeed to grow and others remain poor
2. Learn why prosperity within and across nations is not equally shared
3. Understand the interplay of individual, state and the market in affecting growth and poverty
4. Attain a critical appreciation of why different individuals and groups support or oppose globalization
5. Appreciate how the nature of globalization has changed over the centuries and will continue to evolve.

Students are introduced to examples of how political processes in one nation can impact development outcomes in another nation. They study how political processes interacting with economic processes at local, national, and global levels can lead to great variations in development outcomes.

**PRE-REQUISITES:**

There are none.

**ASSESSMENT TASKS:**

<table>
<thead>
<tr>
<th>Assessment Method</th>
<th>Assignment</th>
<th>Weighting</th>
<th>Alignment with CILOs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written paper</td>
<td>Expository essay</td>
<td>40%</td>
<td>1, 2, 3, 4</td>
</tr>
<tr>
<td>Class participation</td>
<td>Lecture and tutorial participation</td>
<td>10%</td>
<td>1, 2, 3, 4</td>
</tr>
<tr>
<td>Simulation Game</td>
<td>Participation in a simulation game and a reflective journal</td>
<td>10%</td>
<td>1, 2, 3</td>
</tr>
<tr>
<td>Final Exam</td>
<td>A two-hour closed book written final exam scheduled during the exam period</td>
<td>40%</td>
<td>1, 2, 3, 4</td>
</tr>
</tbody>
</table>

There are four assessment requirements for this course:

1. A two-hour closed book written final exam (40%) covering topics taught in the course;
2. A written paper of a maximum of 1500 words as coursework (40%);
3. Participation in a simulation game and the submission of a reflective journal (10%); and
4. Class and tutorial participation (10%).
The course grade 100% is determined as the sum of four assessment requirements.

**Written Paper**

The written paper should examine in depth a specific topic studied in the course. It should be a thoughtful examination of a topic discussed in this course based on the materials assigned in the reading list. There is **NO** need to consult additional reading materials. Students should **NOT** submit a piece of work that is also being submitted to another course. Here are some good approaches:

1. Write a review of one of the books assigned in this course.
2. Compare and contrast the analysis between two books on a common subject.
3. Write on a topic that is discussed in several books or papers.
4. Consult with the demonstrator for advice in deciding on a topic.

The final written paper is due on **14 May 2023**. Late submissions will **NOT** be accepted. A precise word count must be given at the end of the paper. Footnotes and references should be placed at the end of the paper so that they can be excluded from the word count. Appendices are not necessary and not appropriate for papers of such a short length and should not be submitted. It is advisable to seek English language assistance if needed to ensure that your paper is clear.

Students **must submit a half-page proposal** of the paper they intend to write. The deadline for submitting the proposal is **5 March 2023** before the start of Reading Week on. Late submissions will not be allowed. Students should include in the proposal the title of the project and a short summary of the subject they will investigate.

Students are also encouraged to submit **optionally a first draft** of the final paper for the instructor to provide feedback, but this is optional, not mandatory. If students choose to submit a first draft, they must do so on **16 April 2023**. Your draft has to be a complete one and with full citations (to avoid plagiarism). Otherwise, it will be returned without marking. Your grade on the paper will depend only on your final paper, and not your draft. However, plagiarism is not allowed for both draft and final submission. Penalty will be imposed for both cases.

Students can make a late submission if they wish to have their drafts marked but pass the deadline; a late penalty will be imposed on their final grade without saying. Other than submitting on Moodle, any act of sending out a draft after the deadline asking for detailed feedback will be considered as an act of late submission.

If you submit a written paper, but **DID NOT submit a proposal or the proposal was NOT APPROVED**, then you will **FAIL** this part of the assessment.

**Simulation Game**

Dr. Vera Yuen develops a poverty simulation game using course and researched materials. It simulates people living in poverty in developing countries. Students will work in groups and make multiple rounds of decisions, then submit a reflective journal. There is nothing to prepare except attending the face-to-face class ahead.

The play is group-played for discussion. The reflective journal is individual.

The grading of the assignment requires the following:
• Attending the class fully on 22 Mar for preparation of the game (attendance will be taken).
• Attending the simulation game on 29 Mar fully from beginning to end (starting from 12:30, attendance will be taken)
• Your group has to submit decisions for all rounds (if not the whole group is considered absent).
• Filling out both pre-game & post-game surveys (tracked by student no.)
• Submitting the assignment on time.

Guiding questions for the reflective journal will be posted after the game. The submission deadline is 14 May 2023.

Therefore, **deadlines** to be observed:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proposal (mandatory) submission</td>
<td>5 March 2023</td>
</tr>
<tr>
<td>First draft (optional) submission</td>
<td>16 April 2023</td>
</tr>
<tr>
<td>Final paper and reflective journal submission</td>
<td>14 May 2023</td>
</tr>
</tbody>
</table>

The proposal and paper(s) **must** be submitted electronically via MOODLE.

**COURSE SYLLABUS:**

**Reading List**

Required readings are marked with an asterisk; others are optional.

I. **The Great Escape**

</table>

**ACADEMIC CONDUCT:**

1. The University Regulations on academic dishonesty will be strictly enforced! Please check the University Statement on plagiarism on the web: [http://www.hku.hk/plagiarism/](http://www.hku.hk/plagiarism/)

2. Academic dishonesty is behavior in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following type of case:

   a. Plagiarism - The representation of someone else’s ideas as if they are one’s own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else’s ideas is still using someone else’s ideas, and must be acknowledged.

   b. Unauthorized Collaboration on Out-of-Class Projects - The representation of work as solely one’s own when in fact it is the result of a joint effort. Where a candidate for a degree or other award uses the work of another person or persons without due acknowledgement:

      - The relevant Board of Examiners may impose a penalty in relation to the seriousness of the offence;

      - The relevant Board of Examiners may report the candidate to the Senate, where there is *prima facie* evidence of an intention to deceive and where sanctions beyond those in (1) might be invoked.

   c. Double Submission of Assignments - The submission of assignments as fulfillment of work in this course using materials that were or are being submitted for another course is also plagiarism. It is self-plagiarism and is the same as plagiarism, i.e., representation of someone else’s ideas as our own. It is an attempt to get credit for work that will earn credit elsewhere.

--- End ---
