4. Course Description

Course Description	The digital economy has fundamentally altered the nature of and scope for understanding human behavior and business practices. In exploring the digital economy, we cover the concepts, theories, and applications of big data in marketing, with the overarching goal of understanding how to utilize digital data to derive deeper and more meaningful managerial insights. Substantive topics include search, advertising, social network analysis, data analytics, and human mobility. Lectures, discussions, live data-analysis demonstrations, class data exercises, video pieces, and student-led project presentations are major class components.
Prerequisites	MKTG2501: Introduction to Marketing
