- We are interested in how you will pursue your intellectual interests and apply your personal experience, background and future goals to studies in our programs. This is the opportunity for us to hear your voice, and to help us envision what you will bring to the Daniels Faculty.
- The Questions (Choose only one to answer):
 1. Describe a problem that you solved; intellectual, ethical or otherwise important to you.
 2. Describe a moment when you challenged a belief or idea.
 3. Tell us about a time when you learned from failure.
 4. Tell us how you express your creative side (through problem solve, innovative thinking, artistically, etc.).

Part 2: Images

- Select 4-6 of your own images to include in your submission. This means single images – if one work is an integrated diptych or triptych, then that counts as one image and should remain whole – but do not include a sheet of thumbnail images. For each item submitted, you will be required to provide information on the title, medium used, the original size of the artwork, date of completion and please specify if the work was done as a school assignment or not. Please submit images that are entirely your own creative work.
- Other than what is required in the point above, do not add any extra or additional writing on the documentation of the visual images (i.e. no explanations, etc.).
