# HOW TO APPLY

Students taking part in an exchange program must first be nominated by their home university. Once they have been approved, the application documents are to be submitted completely online to the TUM main office for exchanges: the TUM Global & Alumni Office (globaloffice@tum.de).

**THE APPLICATION DEADLINE for the Winter semester**  
(or for the entire year at TUM) is May 15.

**THE APPLICATION DEADLINE for the Summer semester**  
is October 31.

Further information about the application procedure can be found on the website of the TUM Global & Alumni Office.

# COME TO TUM SCHOOL OF MANAGEMENT AS AN EXCHANGE STUDENT

# ABOUT US

## Our vision and mission

We aim to educate responsible talents and pursue relevant research to advance innovation-based businesses and societies in Germany, Europe and the world by contributing to solutions for grand societal transformations.

## Then and now

The Technical University of Munich has been shaping the future since 1868. Founded by King Ludwig II of Bavaria, its original purpose was “to bring the igniting spark of science” to the commercial and industrial world. Today, our university ranks among the very best in Europe.

TUM School of Management has its focus on the interface of management, engineering and the natural and life sciences; the faculty is a natural partner for both business and research since its foundation in 2002. The School prides itself on its international flair while retaining its identity as a center of excellence. This unique combination means that we attract outstanding students and academics from all over the world who contribute to our international standing and reinforce our global perspective.

TUM School of Management works closely with other academic disciplines and the corporate world. In line with this vision, we have sites in Munich, Garching, Weihenstephan, Straubing and Heilbronn.

The school has approx. 40 professors, 300 employees and 5.000 students. In addition, it cooperates closely with about 120 partner universities and business schools worldwide.

about TUM

# ACADEMIA

## Campus Munich (including Garching & Weihenstephan)

At our biggest campus in Munich, a great variety of business courses from five different departments (see course catalog) take place. Munich-based exchange students can also attend courses at the campuses in Garching and Weihenstephan.

## Campus Heilbronn

Since Heilbronn is a hub for successful family-owned businesses, including many medium-sized companies that are international leaders in their fields, students at TUM Campus Heilbronn have the opportunity to specialize in “Management of Family Businesses” and in “Digital Transformation”. Our international student body enriches the modern campus and enables you to get in contact with people from all over the world.

## Campus Straubing

With the focus on sustainability, our state-of-the art Campus Straubing brings to life the connection between management studies and the natural sciences. The familial environment at the modern campus allows for a close interaction between students and professors.

## Courses and lectures

Exchange students can attend all courses, lectures and seminars offered by the TUM School of Management. However, the number of participants is limited for some courses. In this case, prior application is necessary. TUM School of Management offers a great number of courses taught in English. Students have to choose which campus they want to visit prior to their arrival and cannot commute between them.

It is required that at least 60% of your course choice has to be offered by TUM School of Management. However, it is also possible to attend some courses (but not more than 40%) at other TUM Schools.

The credit system ECTS is used at TUM. The workload per semester for a fulltime TUM-student is 30 ECTS. We recommend taking 15 - 20 ECTS to our exchange students.

Further information about the course catalog can be found on the website of the International Office of TUM School of Management.

# STUDENT LIFE

## Buddy program

TUM School of Management provides a local student buddy for every incoming exchange student prior to the arrival in Germany. The buddy assists you in all regards of studying/living in Munich. Furthermore, TUM School of Management organizes social events and excursions for incoming and local students.

## Accommodation

The application at TUM School of Management does not include an offer for a room in a dormitory. You can try to apply for a dorm room, but most exchange students will have to find a room by themselves on the private market.

Here you can find our list of advice on finding accommodation. Please scroll down to the topic “Finding accommodation”

## Life around the campus

**Munich** has a continental climate strongly influenced by its proximity to the Alps. All four seasons have their own benefits. Skiing in winter, hiking in spring, swimming in the lakes in summer and visiting the famous Oktoberfest in fall.

The **Heilbronn-Franken** region is well-known for its many vineyards, which provide a stunning scenery and the many local wine festivals in autumn are a great way to spend time with friends. As a student town, Heilbronn also has a lively café and bar scene located along the Neckar river, where the many students mingle with the locals.

**Straubing** is a picturesque, medieval town that is a great destination for outdoor enthusiasts. You can enjoy aquatic sports in, on and along the Danube like SUP or water skiing and benefit from the many bike and hiking trails in the nearby Bavarian Forest. Every August, Straubing celebrates its big summer festival Gäubodenfest, which attracts locals and tourists alike with its many fairground rides and beer tents.
