

Asset Management and Private Banking – Alumni Sharing 2024

On 24th September, we had the privilege of hosting the Alumni Sharing event, which provides an invaluable opportunity for our freshmen and sophomores to practice networking and gain practical advice.

The event commenced with an insightful introduction by Professor Anna Wong. She provided a comprehensive overview of the finance industry, detailing the various finance roles. For our freshmen, this gave them a glimpse into the world in finance. As for our sophomores, the introduction acts as a recap on the industry basics.

Following this, our participants were divided into groups and had the opportunity to sit in circles with alumni from different sectors, such as private banking, corporate banking, asset management, and more. The alumni generously shared stories from their school days, offered practical advice to our students on how to make the most of their university life, and provided valuable insights into career planning.

We would like to extend our heartfelt gratitude to our alumni for their time and thought-provoking sharing. Without them, this event would not have been such a success.

Looking forward, we hope to organize more of these enriching opportunities. Such sharing not only strengthen our AMPB community but also provide a platform for our students to gain firsthand knowledge from those who have walked the same path before them.
