CAREER SUPPORT

Morgan Stanley Equity Swap Trader/ Risk Manager (Part-time Internship)

As an intern in the Delta-One Structured Product (DSP) Team, I learned about how traders manage the daily trade flows of equity swaps across different APAC markets by shadowing and working on projects. I also got the opportunity to network with professionals in Morgan Stanley IED and work with them, thanks to the collaborative culture of the firm. The learning curve is steep and senior managers have high expectations on interns, which allows me to gain a solid understanding of trading procedures quickly.

The experience is absolutely satisfying and I must express my gratitude to HKU Business School offering such valuable internship opportunity.

McKinsey & Co. – Part-time Yearlong Internship

Internship at McKinsey offered me with great exposure to an array of industries and project types, ranging from a public health project for a foreign government agency to a corporate finance deal for a Fortune 500 company. The consulting experience required me to think critically and out of the box to provide unconventional solutions to conventional problems. I also made friends with my colleagues who were so welcoming and have been great mentors along the way.

Neuberger Berman Private Equity Internship Programme

My Private Equity Internship experience at NB has been highly rewarding and eye-opening. Apart from the exposure to various PE investments across a wide range of industries, I was mentored by experienced colleagues who offered me practical career advice and insights into the PE landscape in Asia. Thank you HKU Business School and NB for the exclusive opportunity!

The experience is absolutely satisfying and I must express my gratitude to HKU Business School offering such valuable internship opportunity.

VIRTUAL PROGRAMME

USC Marshall School of Business Virtual Business Professional (VBP)

I was fascinated to learn about various content, such as different social media strategies, crowdfunding, donor retention, content creation, bolted in reputation etc. Such knowledge would not be covered in the ordinary academic syllabus, however crucial to internships and job seeking.

CORPORATE PARTNERSHIP

HKU-Accenture Business Consulting Programme

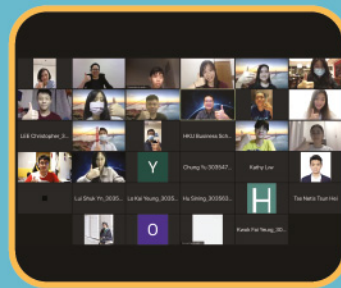

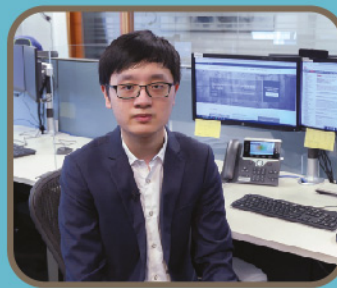

This well-structured and comprehensive programme introduces students to the consulting field. We have learned various frameworks that consultants use daily to solve business problems and be good storytellers. Our group was able to put theories into practice and won Champion in the final case competition. We were grateful that our coach was always there to provide guidance and feedback to us and share his valuable experience throughout the programme.

Connectivity in Finance

I am writing to express my gratitude for the well-organised programme. I am excited to be offered such an opportunity, and am given a lot of insiders' review on the private banking industry. Therefore a heartfelt thanks to all of you for making the event possible!

Venture into Future Career (VFC)

The programme provided us with opportunities to communicate with senior management and start-up in various industries. The speakers are supportive. They offered me a lot of useful advice on career choices and personal development. The programme gave me new insights on industry like reg-tech which I seldom heard of. I look forward to joining the face-to-face version of this programme next year!

STUDENTS' SHARING

AWARDS, PRIZES & SCHOLARSHIPS

Faculty Student Leadership Award

I'm extremely grateful to the HKU Business School for providing me with a wide variety of extra-curricular opportunities which have fuelled my holistic development. It is an honour to receive the Faculty Student Leadership Award 2020-21 and I hope to continue doing meaningful work and contributing to society in all possible ways.

MAINLAND PROGRAMMES

China Business and Economics Programme (CBE)

The greatest takeaway was learning different strategies about Mainland China companies through case studies and guest talks. After joining this programme, we had a deeper understanding on the operation, challenges and strategies of various industries in China.

HKU BUSINESS SCHOOL MENTORSHIP PROGRAMME

My mentor has generously contributed her time and knowledge to guide me through my career path. I have received constructive feedback from her regarding the dilemma of taking internship offer. Moreover, she shared with me her experience in pursuing a master degree in HKU, which was extremely insightful.

OVERSEAS EXCHANGE

Nanyang Technological University, Singapore

Being an exchange student at NTU, I believe my exchange experience was very enriching, not only did I gain knowledge and insights on academic-related matters, but also was exposed to international, historical, and cultural affairs, which supplements my academic studies. This exchange experience has made me a more well-rounded individual and I am now more confident and able to have intellectual exchanges with people from all over the world.

New York University, USA

I attended New York University, USA as an exchange student this semester. Due to the outbreak of COVID-19, I had to return to Hong Kong in the middle of the semester and complete half of the semester virtually. Regardless, it was an enriching experience and I have gained a lot from my new experiences: living in another city, attending another university, and meeting new friends. The memories from the exchange experience are something I will always hold dear in my heart.
