

Important reminder to BBA(Law) / BBA(Law)&LLB students with Professional core in Accounting under the 4-year curriculum of 2012/13, 2013/14 and 2014/15 intakes

Please note that it is advised by the Hong Kong Institute of Certified Public Accountants (HKICPA) that completion of **ECON1220 Introductory Macroeconomics** is part of the requirements for the application of CPA Qualification Programme (QP). If you would like to undertake QP after graduation, you are required to complete ECON1220 within your first degree curriculum.

In order to ensure your eligibility for the application of QP, **students** are strongly recommended to complete ECON1220. It will be regarded as a free elective course or a FBE elective course for the Professional core in Accounting to fulfill your curriculum requirements. Please enroll ECON1220 during the course selection period in August or add/drop period in January/September. You may also apply credit transfer for ECON1220 if you take an equivalent course during your exchange studies. In case ECON1220 is not completed upon graduation, HKICPA may put your QP admission on hold and impose extra requirement on your application.

Should you have any questions, please contact the Faculty Office at fbe.undergrad@hku.hk for more information. Thank you.
